Electric Power Trucks [500kg & 800kg]

A great all-rounder, this battery-powered platform truck is suitable for everyday indoor and outdoor use to shift heavy-duty items.

Available with 500kg or 800kg capacity, the Power Truck boasts an impressive 12 mile range when pushing or pulling a full load.

Large pneumatic tyres are capable of climbing 20° gradients and working over rough ground. Featuring a body-bump safety device which immediately backs up the truck should it come into contact with the operator. 240v rechargeable battery included.
