

Folding Trolley Frame [400kg]

The new Folding Trolley is the perfect solution for transporting stone slabs, glass, steel and plasterboard across site.

Designed to transport materials of up to 400kg, this trolley features 4 swivel casters with locking breaks to easily transport materials across flat, smooth surfaces.

The Folding Trolley includes a rubber lining protection to help prevent damage to the materials being transported and features retaining straps to secure loads. It can also be folded away for easy storage and transportation.

Key Features

- Capacity: 400kg
- Breaks down easy for transport
- Large wheels for working on-site
- Weight: 34.3kg
- Rubber pads to keep loads safe
