

## Slab Cart [150kg]

The Slab Cart is the ideal solution for picking glass, stone and granite slabs from stillages to transport them to their desired install or storage location.

This compact 150kg capacity trolley includes a rubber strip to protect the load from being damaged and at just 676mm wide, it is the ideal solution for use in confined, restricted access areas.

Including 4 brake swivel castors, the Slab Cart can easily transport, and manoeuvre loads across, factories and warehouses.

### Key Features
