

Trolleys

MRT Dolly

The MRT Dolly has been designed for use with GGR's MRT4 and MRTA8 glass vacuum lifters. It is an easy and safe way to transport glass vacuum lifters across site and move lifters into storage when not in use.

This dolly also features extension arm supports, to securely hold the vacuum lifter in place during transportation.

Key Features

- For use with MRT4 or MRTA8 vacuum lifter
- Easy to transport
- Large solid core tyres that won't go flat
- Extension arm supports, held in place securely with cotterless hitch pins
- Compact design to store lifters in tighter spaces with built-in handles to aid in transport and lifting
- Weight: 15.5kg (without lifter)

Reference Code

WGGR464
