

Technical Specification Sheet

WH-KI Ladder Hoist

[200kg]

To help meet the demands of roofing and high-level building projects, the WH-KI Ladder Hoist has a knuckled joint so building materials can be transported up to 6 metres over a rooftop.

Key Features

- Capacity: 200kg
- 200° rotating turntable
- 4 extendable outriggers
- Hoisting winch features hydraulic multiple-disk brake
- Air cooled 13hp Honda GXV 390 petrol engine
- Hydraulic double knee joint allows 6m extension over a roof
- Cable remote control as standard
- Single axle braked towable trailer

Reference Codes

21m - **MCO35**

25m - **MCO35B**

30m - **MCO35C**

36m - **MCO35D**

42m - **MCO35E**
